Asia to New Zealand ANZL – Service Update

Hamburg Süd looks to deliver improvements to our schedule integrity of the ANZL service, ensuring on time arrivals and departures at the key ports through Asia, Australia and New Zealand.

With latest port disruptions the ANZL service today is significantly delayed causing disrupted schedule and unpredictability to customer supply chains.

To offset this delay and disruptions at subsequent ports, Hamburg Süd will adjust proforma for one cycle of the ANZL service from Asia to Australia and New Zealand - the service will slide the schedule for 1 week, leading to departure dates deferred by 1 week.

M/V Safmarine Mulanje 045S will be the first vessel deployed with this change, ETD from Tokyo, Japan starting from 12th of November 2020.

The ANZL service berthing windows will be revised as follows:
